You get a white wine from a red grape by removing the skins from the juice. All the color comes from the skins... even red grapes are white inside. White wines pairs best with light foods such as veggies, some chicken and fish.

# BUBBLY

French champagne is normally a blend of chardonnay, pinot noir, or pinot blanc grapes, as in the United States, however we classify “champagne” as sparkling wine.

## Brunello & Rosso di Montalcino

Montalcino is a small, medieval town just outside of the town of Siena. Brunello and Rosso di Montalcino are created entirely from Sangiovese grapes. By Italian wine law Brunello must be aged longer than any other wine, a minimum of four years, and the Rosso for only a year. Rosso is generally less tannic, lighter and fruitier... Whereas the Brunello is more complex and significantly more tannic.

# SUPER TUSCANS

In the 1970's Piero Antinori, whose family had been making wine for more than 600 years, decided to make a richer wine by adding Bordeaux varietals (namely, cabernet sauvignon and merlot). The result was the first Super Tuscan, which he named Tignanello, after the vineyard where the grapes were grown. Other winemakers started experimenting with Super Tuscan blends of their own shortly thereafter.

## BAROLO, BARBERSCO, & BARBERA

Barolo is one of the world's greatest red wines and is often referred to as "the king of wines." Barolo is made in the Langhe Hills region of Piedmonte, and is comprised entirely of Nebbiolo grapes. Big, powerful & full-bodied with a complex mixture of tastes and textures such as strawberry, chocolate and vanilla. Barbaresco is Barolo's near neighbor and stylistic soul mate, but tends to be softer and more graceful. Barbera, grown in Alba & Asti, is known for bold fruit flavor.

# FRENCH BORDEAUX

French wines tend to focus less on fruit flavors, compared to wines from newer growing regions in the “New World,” and may even be described as having earthy or mineral undertones. Bordeaux is the planet's largest source of fine wine, and is considered by many wine connoisseurs to produce the world's greatest reds... 7,500 different producers make almost 10,000 different Bordeaux wines, so there is no simple explanation as to the taste of Bordeaux wine.

# MERLOT

Merlot is the most widely planted fine wine grape in the world, with nearly 460,000 acres cultivated in more than two dozen countries. Not quite as harsh as other reds, merlot has less tannin and is more herbaceous overall in both aroma and taste. It is mellow but still complex, and is known for the flavors of plums, black cherry, violets and orange. Merlot wine is excellent with pasta, meats and even chocolate.

# PINOT NOIR

The history of Pinot Noir tells us that it was named after the noble Pinot family who date back to the Roman era. The “noir” variety is typically a rich, full-bodied wine, but not too heavy. Pinot Noir is very diverse, typically high in alcohol and is neither acidic nor tannic. Generally, Pinot Noir is best enjoyed with less hearty fare such as fish, pasta and leafy greens.

# CABERNET SAUVIGNON

Although grown all over the world, California is one of the world's largest producers of Cabernet Sauvignon. Its distinctive black currant aroma can develop nuances of cedar and violet, and its typically tannic edge may soften and smooth considerably with age. Nothing goes better with a glass of "cab" than a red meat, as well as most grilled and smoked proteins.

## CABERNET & BORDEAUX BLENDS

“Diverse blends make for happy meritages.” Cabernet sauvignon is often blended with Merlot, Cabernet Franc, Malbe and Petite Verdot to produce world-class wines. Often referred to as meritages or bordeaux, these blends result in a truly unique and typically very smooth yet bold tasting wine.
